# About Us

Choosing the right stand for an Inverter for commercial or residential premises is as important as buying the brand new power backup system. It not only protects Inverter from external elements like moisture, dirt, dust etc. but also facilitates their easy movement from one place to another. Viraj Enterprises founded in 2004, is a reputed Manufacturer and Supplier of Inverter Stands, Double Inverter Battery Stands, Grey Tall Tubular etc. Our standards of progression in the business are dependent on our manufacturing technology and self-competent workforce which understands its responsibility and makes consistent efforts in developing quality assured trolleys and stands for Inverters.

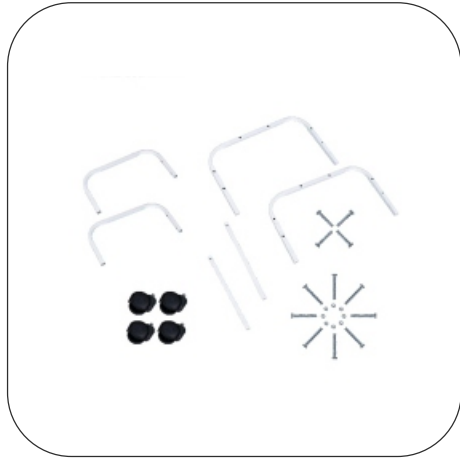

Of course, each product is manufactured using a high-grade material with the aid of ultra-modern techniques. As a result, we have continuously been climbing success ladders in this particular field by winning the loyalty of a large number of clients. Our infrastructure capability along with excellent logistic management system not only helps us to manage streamlined business operations but also aids us to take & accomplish bulk orders on time.

When Viraj Enterprises started fourteen years ago, no one would have assumed that it will set new success milestones in the market. From our New Delhi based operational hub, our business activities are executed in a well-planned manner. Inverter Trolley and Inverter Stands are our specialized products which we develop with the aid of progressive techniques by ingenious professionals. The material quality used in the manufacturing process is decided by our expert procurement team which is composed of experienced and dedicated quality controllers.
